Notes for grown-ups

Why this matters

Counting carefully means touching each object once and saying one number for each. These I-spy pages give lots of practice finding, counting and colouring groups of shapes.

How to use this book

1. Do one or two pages a day, not the whole book at once.
2. Talk about the pictures before you start each page.
3. Let your child take their time; there is no rush.
4. Praise trying and noticing, not neatness.

Things to say

- "How many can you see?"
- "Touch each one as you count."
- "Which number comes next?"

What to look for

- Counts objects accurately, one for each number
- Says the last number as the total
- Writes or says how many

If it is too hard

Count with your finger and cross each shape off as you go.

If it is too easy

Ask them to count in twos or to draw a group with the same number.

You will need

pencil, crayons, counters (optional)

EYFS link

Mathematics (Number / Numerical Patterns): understand numbers to 10 and the composition of each; subitise; compare quantities; explore patterns, shape and measure.
