How to Use These Count and Clip Cards

What children will practice: Counting objects accurately and selecting the correct numeral by pegging or clipping.

How to use:

1. Cut out the cards along the dashed lines.
2. Count the objects on each card carefully.
3. Use a peg, paperclip or circle the correct number at the bottom.
4. Check the answers together.
5. Laminate for repeated use if you like.

Tips:

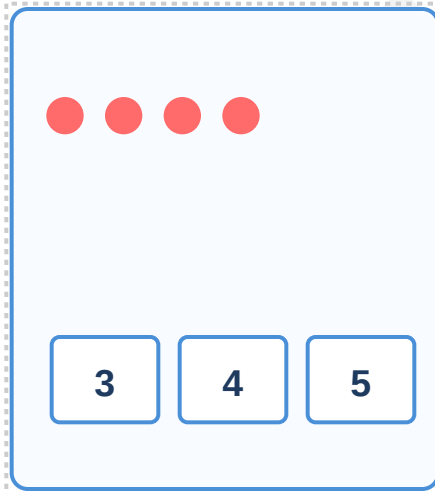

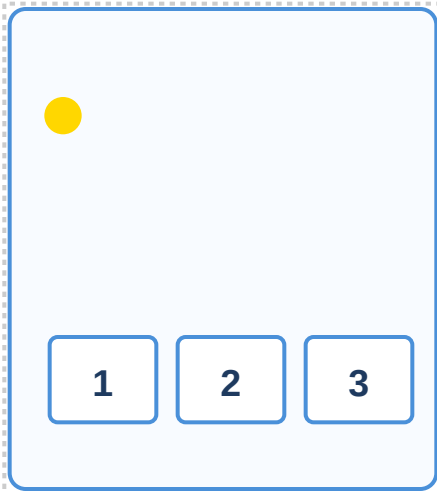

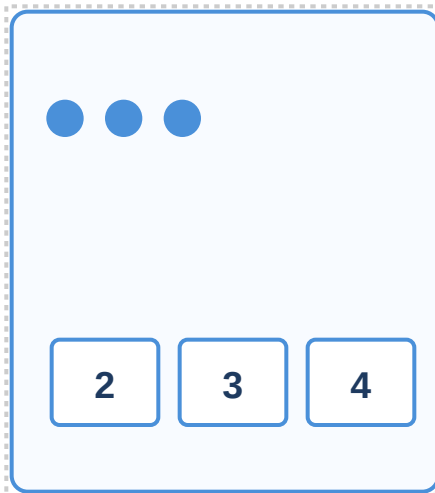

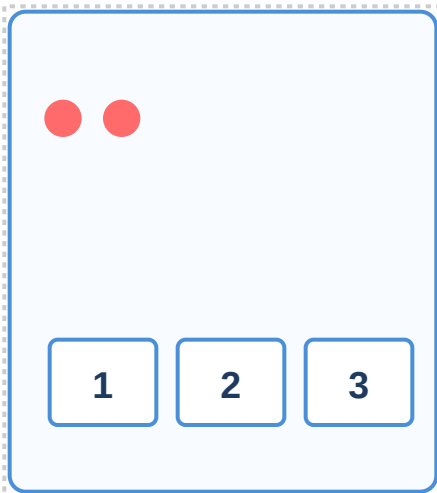

- These cards support one-to-one counting and numeral recognition.
- Great for independent practice or small group activities.
- Start with smaller numbers before larger ones.

Cards included:

- Count and clip cards for numbers 1–5
- Multiple choice options on each card
- Extra practice cards
