Teacher:

count

match

numeral

What children will practice: Counting groups of objects and matching them to the correct numeral.

How to use:

1. Count the objects in each group carefully.
2. Find the matching numeral.
3. Draw a line to connect the group to the correct number.
4. Check your matches together.
5. Celebrate every correct match!

Tips:

- Start with smaller numbers (1–5).
- These pages support one-to-one counting and numeral recognition.
- Great for independent or guided practice.

Activities included:

- Count and match pictures to numerals
- Groups of objects for numbers 1–5
- Extra matching practice
