most

What children will practice: Comparing groups of objects to find more, fewer, most and fewest.

How to use:

1. Count the objects in each group carefully.
2. Circle the group that has more or fewer.
3. Circle the group that has the most or fewest.
4. Talk about which group has more and which has less.
5. Celebrate every correct comparison!

Tips:

- Comparing quantities builds early number sense.
- Use the words more, fewer, most and fewest as you work.
- Great for independent or guided practice.

Activities included:

- More or fewer
- Most and fewest
- Extra comparing practice

Circle the group that has more.

Which group has more?

Group A

Group B

Which group has fewer?

Group A

Group B

Circle the group that has the most.

Which group has the most?
