What children will practice: Recognising numbers 0 to 10 using flashcards and a classroom number line.

How to use:

1. Cut out the flashcards.
2. Use them for number recognition games.
3. Display the number line in the classroom.
4. Point to the numbers as you count.
5. Celebrate every number recognised!

Tips:

- Laminate the flashcards for repeated use.
- The number line supports counting and number order.
- Great for classroom display and independent practice.

Resources included:

- Flashcards for numbers 0 to 10
- Classroom number line
- Extra number practice

Number Flashcards 0-10

Cut out the flashcards. Use them for number recognition.
