cut

paste

order

What children will practice: Recognising numbers and putting them in the correct order.

How to use:

1. Cut out the number tiles along the dashed lines.
2. Look at the empty boxes.
3. Paste the numbers in the correct order from smallest to largest.
4. Check that the numbers go in order.
5. Celebrate every correct sequence!

Tips:

- Cutting and pasting supports fine motor skills.
- Start with smaller sets (1–5) before larger ones.
- Great for independent or guided practice.

Activities included:

- Number order cut and paste
- Sequences from 1 to 5 and 1 to 10
- Extra practice pages
