

Spiral Cutting

Early Years Worksheet Set

Snake • Lollipop

Student Details

Name:

Class:

Date:

Teacher:

Snake

Lollipop

What children will practice: Scissor skills by cutting along spiral lines.

How to use:

1. Start at the outside of the spiral and cut carefully along the red dashed line.
2. Turn the paper slowly as you cut so the scissors stay comfortable.
3. For the snake: cut the spiral to make the snake longer.
4. For the lollipop: cut the spiral on the sweet.
5. Supervise closely and use child-safe scissors.

Tips:

- Go slowly — spiral cutting takes patience.
- Help younger children start the cut.
- Praise steady, controlled snips.
- The finished spiral can be hung up or used for display.

Activities included:

- Snake spiral cutting
- Lollipop spiral cutting
- Extra spiral practice
- Large and small spirals

Cut the Snake Spiral

Cut along the red spiral to make the snake longer.

Cut along the red spiral

Cut the Lollipop Spiral

Cut along the red spiral on the lollipop.

Cut along the red spiral

Large Spiral Practice

Cut carefully along these large spirals.

Cut along the red dashed spirals

Cut along these smaller spirals.

More spirals to practise careful cutting.
