How to Use These Ten Frame Pages

What children will practice: Using ten frames to understand numbers to 10, counting, and matching quantities to numerals.

How to use:

1. Fill: Draw or place counters in the ten frame to show the number.
2. Count: Count the dots in the ten frame and write the number.
3. Match: Draw a line to match the ten frame to the correct numeral.
4. Talk about how many spaces are full and how many are empty.
5. Celebrate every correct ten frame!

Tips:

- Ten frames help children see numbers as groups of 5 and 10.
- Use counters, stickers or crayons to fill the frames.
- Great for number sense and early addition.

Activities included:

- Fill the ten frame
- Count and write
- Match ten frames to numerals
- Extra practice

Fill the Ten Frame

Fill the ten frame to show the number.
