Collage Templates

What children will practice: Fine motor skills, tearing, scrunching and creative collage using tissue paper.

How to use:

1. Give the child coloured tissue paper.
2. Tear or scrunch the tissue into small pieces.
3. Stick the pieces inside the outlined shapes with glue.
4. Fill the shapes completely for a colourful collage.
5. Talk about the colours and textures as they work.

Tips:

- Soft tissue paper is easier for little hands to tear.
- Use a glue stick or diluted PVA glue.
- These templates are great for sensory and creative play.
- Display the finished collages!

Templates included:

- Simple shapes (circle, square, triangle, heart)
- Large collage areas
- Animal and nature shapes
- Extra practice templates
